

eZy.iOT Mobile Solution with Payment

Unmanned Electronics/Robotics Enabler

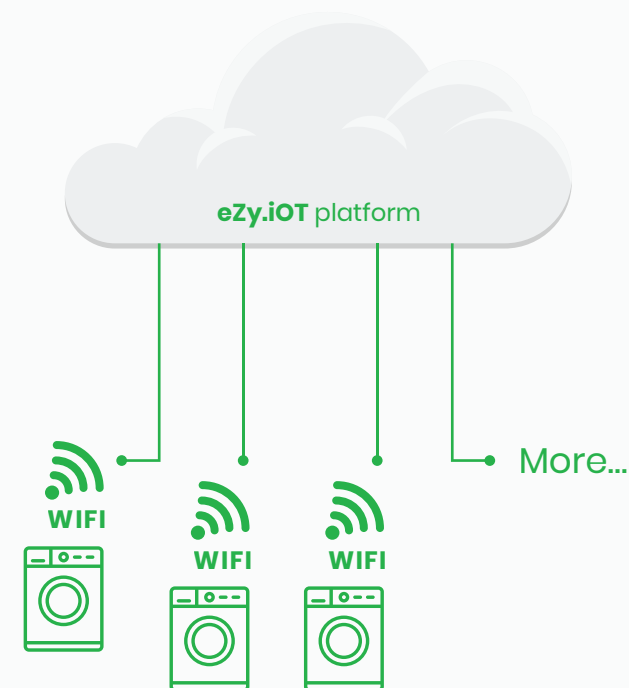

CONVERT AND ADD YOUR TRADITIONAL COIN OPERATION WITH CASHLESS PAYMENT

(VISA, MASTERCARD AND MORE)

KuikPay – eZy.iOT (for Laundromat) enables traditional unattended services that uses robotics and electronic equipment to go digital. It's an IoT enabler for unmanned robotics and electronic equipment-based services. KuikPay is an Internet of Payments solution (IoP) with unified payment for online or card transactions.

eZy.Control IoT Platform

KuikPay (Digital Payment and IoT)

consists of a suite of components

eZy.iOT platform – An IoT Device Management System

eZy.Control – IoT module (for every machinery)

KuikPay App (Android and iOS) – enables user to download and make payment for laundromat wash, comes with basic membership and transaction records.

KuikPay Self-Service Kiosk (Option)

Payment Gateway – Integration and services

CRM module – Cloud based central administration system for basic membership and detail transaction records
